

2024 Premier Series Classic Post & Beam Materials List

First Floor System

- ◆ Pressure-treated sill, 2"x10" spruce floor joists and headers, metal cross bridging and joist hangers
- ◆ 3/4" T&G (Tongue & Groove) AdvanTech® subfloor
- ◆ 2"x12" basement stair stringers

Porch, Deck, and Balcony Materials

- ◆ Pressure-treated nailer, sill, headers, and floor joists; metal cross bridging and joist hangers
- ◆ 5/4" Radius Edge PTSYP decking
- ◆ 6"x6" pine porch posts
- ◆ Spruce rafters, ties, nailers, headers, and metal hangers
- ◆ 5/8" AdvanTech® roof sheathing
- ◆ 1" knotty pine v-groove ceiling boards

Pre-cut Timber Frame System

- ◆ Pre-cut and numbered Eastern White Pine Frame, including: 6"x6" and 6"x8" posts, girts, headers, and principal rafters; 4"x6" straight corner braces
- ◆ Pre-cut and numbered Spruce ceiling joists, posts, beams, roof purlins, blocking, and structural ridge beams
- ◆ Pre-cut, pre-drilled, and numbered Spruce Timber Roof supports beam trusses, with visible steel gusset plates and hardware at cathedral ceiling areas
- ◆ Lag screws, carriage bolts, timber screws, ring shank nails, and tie plates to secure Timber Frame system
- ◆ Decorative wood pegs to conceal fasteners

Structural Insulated Panel System

- ◆ Structural Insulated Panels (SIP's). Panels are fabricated w/ 3 1/2" of urethane foam, injected between two layers of 7/16" OSB (oriented strand board). Each panel is equipped with a built-in wire chase and a tongue & groove edge with a patented cam-lock installation system. Panels are pre-cut for all window and door openings plus all eave and gable cuts, and then numbered for easy installation
- ◆ Urethane foam sealant for all panel joints; 8" screws to secure panels to Timber Frame

Ceiling System

- ◆ 1" knotty pine v-groove ceiling boards: for underside of pre-built flat, vaulted and/or attic truss rafters
- ◆ Beam Ceiling in areas with a second story loft and/or living space above: 4x8 spruce ceiling joists w/joist hangers as required and 2" T&G v-groove flooring

Double Roof System

- ◆ 1" knotty pine v-groove roof boards
- ◆ 2"x 3" spruce roof strapping 24" o.c.
- ◆ 5/8" T&G (Tongue & Groove) AdvanTech® roof sheathing
- ◆ Ridge vent and continuous aluminum strip vents
- ◆ Purlin screws
- ◆ Roof strapping screws

NOTE-Always refer to your individual price quote and Signed Order Form for specific material supplied with your home design.

Interior Partitions, Stairs, and Flooring

- ◆ Spruce studs, plates, shoes, headers, and beam blocking for all interior partitions
- ◆ 2"x12" second floor stair stringers
- ◆ 2"x6" v-groove second floor decking
- ◆ 1" knotty pine v-groove ceiling boards where required
