Optional Design Ideas:

Create a master bedroom area by combining the large bath and bedroom #1 on the first floor (the guest bath is at the top of the stairs)

Change the casement units over to double hung depending on preference of window style

Open up the wall that exists at the south part of the kitchen counter. Create a raised breakfast bar at that location.

Put a shed porch coming off the front of the house to create a terrific area for friends, family and guests
