Optional Design Ideas:

For smaller homes, also consider the plans and designs in the Traditional Home Series

Move the door to the bath into the bath area just slightly to create a very large single coat/entry closet

Also, consider keeping the two closets and one could become a stellar pantry area for the kitchen.

Since bedroom #1 has two great size closets already, you can grow the size of the closet facing the dining room and create more first floor storage space.

Add a Frenchwood door and deck off the side, or rear of the plan. This can provide a terrific area for family gatherings, BBQ's or evening relaxation.
