 our website

Optional Design Ideas:

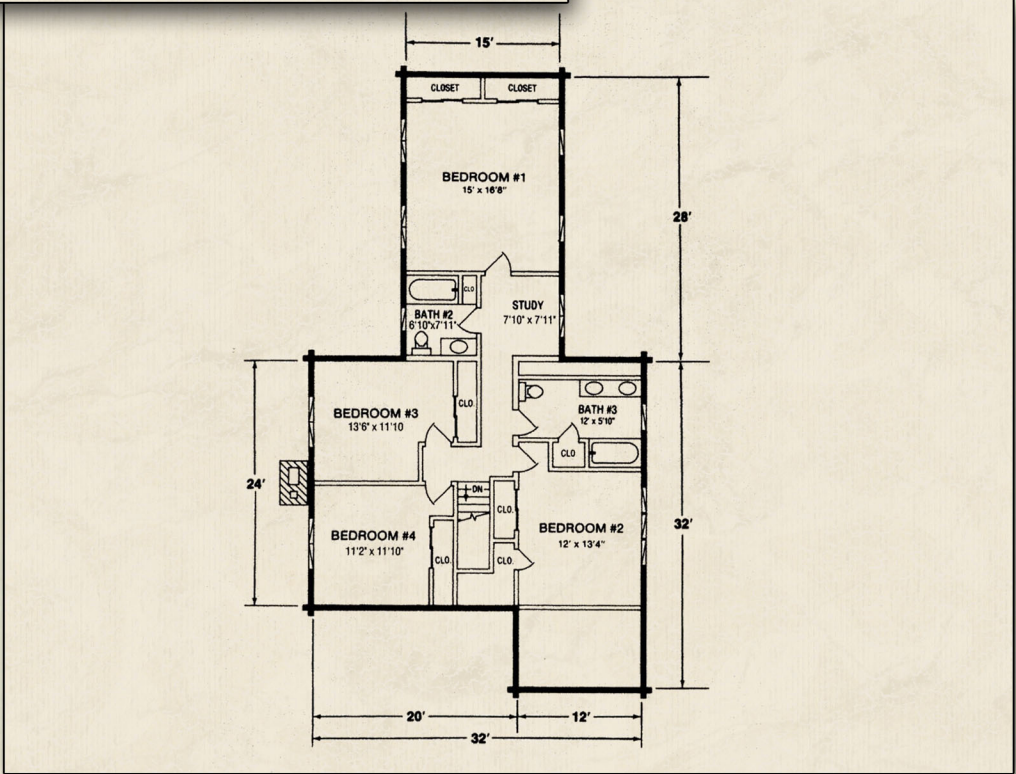

Swing the built-in pantry door outward to generate terrific back-of-the-door storage for all your spices, canning items and other kitchen necessities

Move the washer dryer into the pantry area (or downstairs) and create an instant mudroom area with an amazing built in closet for coats and boots!

Open up the wall area between the kitchen and dining area to allow for an eat-in breakfast bar/gathering counter

Move the door from the wall of bedroom #1 south to just north of the bath to create a private study/master bath area

Consider transforming the study into a walk in closet--now huge windows can be placed on the bedroom north wall!
