Premier Home Series

32' x 60' Size

3,004 Square Feet

Four Bedrooms

2 and a 1/2 Baths

Price information available for download on our website

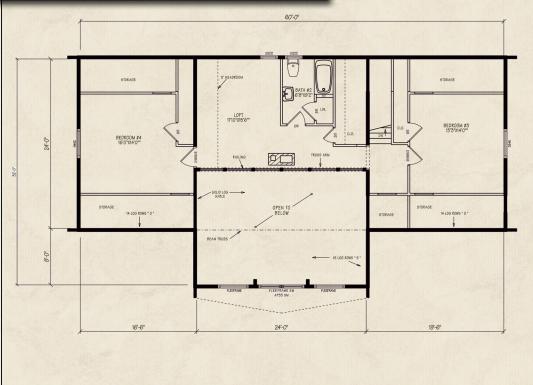

## Optional Design Ideas:

Add a doghouse dormer to the two bedrooms on the second floor for a fantastic window seat!

Install pull-out drawers for an instant "built-in" piece of furnature on the north wall of the two upstairs bedrooms

Fireplace can be moved to the front for a different effect--more like our Aspen Plan & layout

Add a man-door to either side of the great room extension. That allows for windows only along the front--taking advantage of your view with bench seating
